SZE- ZalaZONE

Battery Testing Competence Center

Operating environment - The ZalaZONE Park

Establishing a competence center to test electric batteries, facilitate related R&D and create education related to the topic.

Proving Ground

Rheinmetall area

Customer area I

Customer area II

Research & Technology Center

R&D track modul

Park service

The Center's areas of activity

SERVICES

- ❑ Battery testing activity in cooperation with industrial partner(s) - TÜV Rheinland cooperation

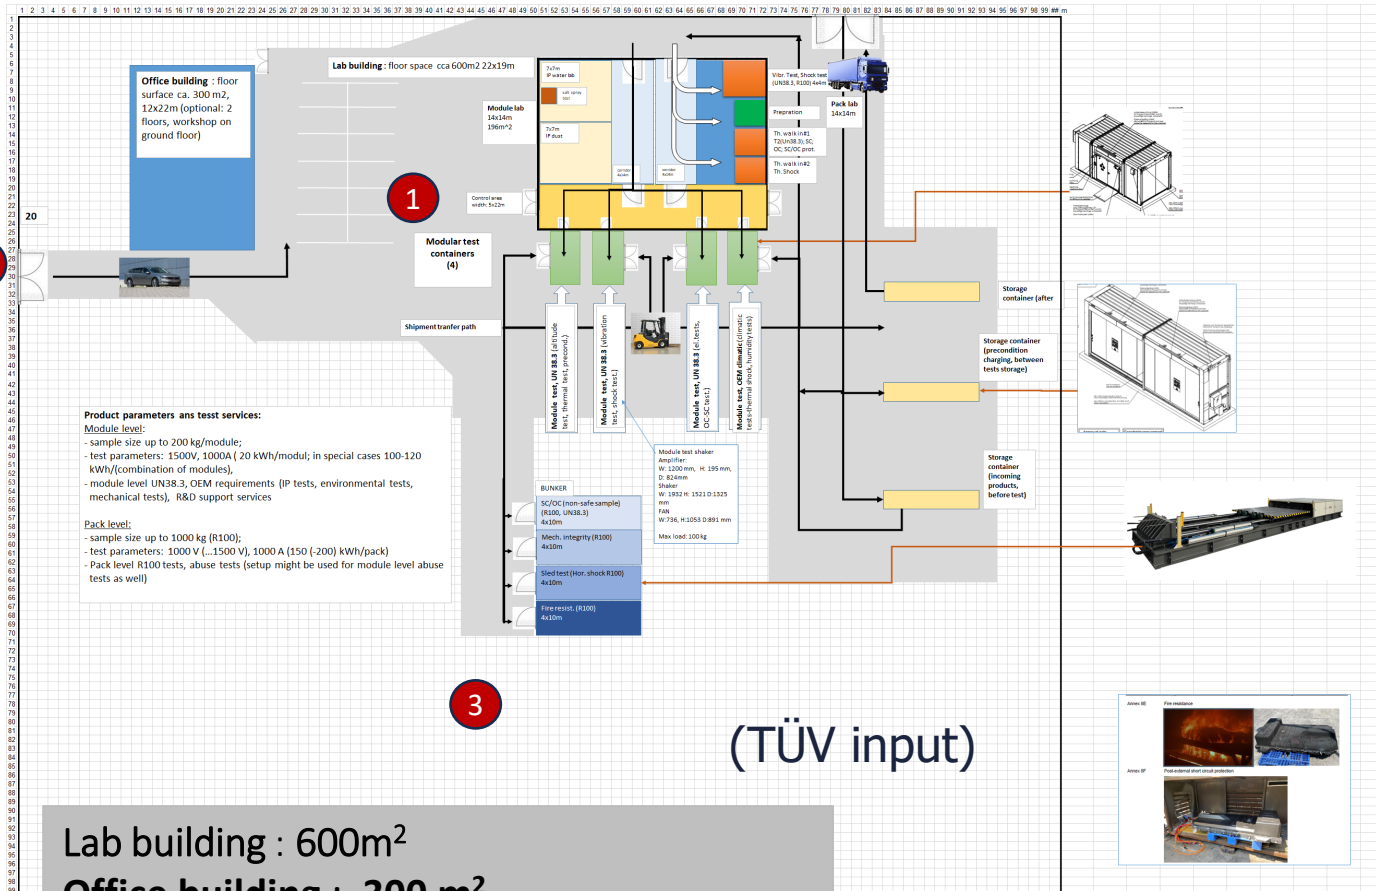

RESEARCH

- ❑ R&D projects related to battery testing

EDUCATION

- ❑ Education related to electric batteries, education support activities (knowledge sharing)

Operational concept

Lab building : 600m²
Office building : 300 m²
Bunkers: 160m²

- + Test containers
- + Storage containers

Environmental tests
Thermal impact tests
Mechanical tests
Functional tests

Research areas related to testing and the environment

A training center that is fully integrated into the professional supply chain

The main purpose of the competence center: to serve the battery manufacturing, installation and user plants operating in the region in a full spectrum
