

Powering the Future

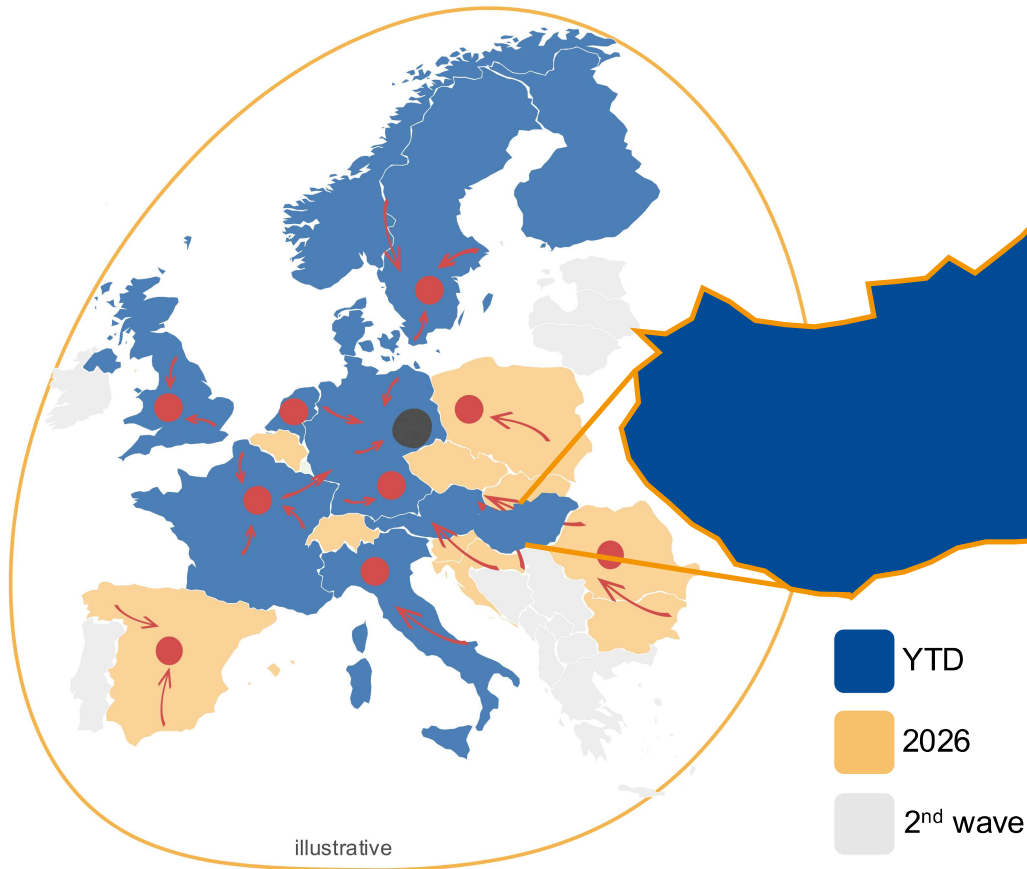

Hungary's Pivotal Role in Building a Collaborative
Battery Recycling Ecosystem in Europe

Olaf Rogge | Hungarian Battery Days 2025

 **BASF**

We create chemistry

Hungary has become a cornerstone of Europe's battery recycling ecosystem

BASF Partner Network for seamless EoL Battery & production scrap collection across Europe

- Strategic Location 
- Robust Industrial Ecosystem 
- Supportive Government Policies 
- International Partnerships 

BASF's dual approach to Battery Recycling

Partnering for Resilience, Building for Strength

Partner network for flexible and reliable services along the entire battery recycling value chain

BASF Black Mass Production Facility and Prototype Base Metal Refinery

Our vision

A cohesive, European battery recycling ecosystem

Network of regional logistics hubs

Localized black mass production

Strategically placed BMRs

Let's shape the
future of
electromobility
together!
