EVE In Europe

2.1 EVE Group in Europe

- EVE Germany @ 6 Delivery VMI hubs, and providing comprehensive energy solution @ cover 500 customers in EU.
- EVE Power Hungary @ 1st oversea factory of EVE to produce 46 series round cell
- EVE CLS France @ Global Cooperation

EVE Energy's Battery Plant in Debrecen

Supplying high-quality battery cells to BMW Neue Klasse

- Located in Debrecen North-Western Industrial Park
- 45 hectares investment area
- Direct neighbour of BMW Debrecen

- 628Ah Large Cell Capacity
- 2.009kWh Cell Energy
- 30% greater driving range
- ~30% faster DC fast charging

- 28 GWh annual capacity
- 1,000 created jobs
- Future R&D projects

ESG Activities in Debrecen

Environmental and Social Management Plan

EVE Power Hungary has engaged a world-leading environmental and social consulting firm to assist in identifying the E&S impacts and risks during construction and operation phases, including Environmental and Social Impact Assessment (ESIA), Human Rights Impact Assessment (HRIA), and climate change risk assessment(CCRA). Two targeted Environmental and Social Management Plans (ESMP) have also been formulated to ensure all activities are conducted in a manner that minimizes impacts on environmental and social receptors, with strict compliance with applicable laws and regulations.

ESG Ratings and External Awards

As of September 2025, EVE Energy has achieved a score of 61 in the **S&P Global CSA Rating**, an increase of 19 points compared to 2024. Its **MSCI-ESG Rating** remains at BBB, and it has been awarded a Gold Medal in the **EcoVadis Rating**. The latest **CDP** rating will be published in 2026.

Through our ongoing focus on ESG, continuous improvement, and outstanding practical performance, EVE Energy has also garnered multiple authoritative awards in related fields. On April 15, 2025, EVE Energy was awarded for the S&P Global Industry Top Improver Award.

Social and sport related ESG activities

DVSC sponsorship

EVE Power Hungary served as the main sponsor of the local football team for an entire season. This partnership reflects our commitment to supporting community life and local values. further cooperation is expected in the future

Hungarian Throw Down sport festival

Main sponsor of the Hungarian Throwdown, a three-day international sports event. EVE demonstrated its commitment to promoting a healthy and active lifestyle and strengthening its connection with the local community

World Clean-up Day

EVE Power Hungary participated on the local cleanup campaign held as part of the global World Cleanup Day. The goal of the event was to promote environmental responsibility and encouraging local community engagement.

Airport Run Debrecen

EVE Power Hungary was represented in the relay category at the “8th Debrecen Airport Run”, which saw a record number of participants this year, with nearly 3,500 runners at the starting line.

In Hungary ,for Hungary & Europe

Social and cultural related ESG activities

IMÁZSIA Chinese Cinema Event

On October 5, 2025 EVE was the host and main sponsor and supported the organization of the first IMÁZSIA Film Festival in Debrecen, which aimed to bring Chinese film culture closer to the local community. At the event's opening ceremony, we welcomed guests with an opening speech.

CAMPUS FESTIVAL

EVE was exhibitor at the 4-day Campus Festival, one of Hungary's largest music and cultural festivals, attracting more than 120,000 visitors. We had our own booth at the event, where visitors could play an "electric skill game" and learn about our current job opportunities from our recruiters.

Mid-Autumn Festival

EVE sponsored the Chinese Mid-Autumn Festival event in Debrecen to offer deeper insight into the beauty of Chinese culture. Our Head of Government Relations, emphasized in his speech that beyond economic presence, we also have a responsibility to promote intercultural dialogue and understanding.

Debrecen City Ball

The Debrecen Ball is a significant charity event in Debrecen. Our sponsorship directly contributes to educational causes, it not only aligns with our corporate social responsibility but also highlights the event's core charitable nature.

Governance related ESG activities - Staff Care

- “joint culture” Create a platform for the common development of the individual and the company, so that the talent harvest a sense of achievement, a sense of acquisition, a sense of happiness.

Talent-driven innovation
Innovation drives development
